Estne hydrargyrus luis Venereae Alexipharmacum?

Triplex est partis [illegible] morbus triplici remediorum genere oppugnandus, intemperies simplex [illegible] utraq; [illegible] contrario, cum humor [illegible] sanguine, pituita, alteruta bili evacuantur, sanguis phlebotomia, alii catharsi [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] antidota [illegible] [illegible] [illegible] [illegible] [illegible] forma corruptela antidotis, quorum alexiphar-macea [illegible], alexiteria [illegible], annuleta [illegible].

Morbi [illegible] partis nobilis [illegible] [illegible] calorem, spiritum, et humidum primigenium [illegible] [illegible] frigore calor extinguitur, in [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] in marasmo, in phthisi tota [illegible] patitur, [illegible] manifesti qui manifesto, occulti qui [illegible] modo agunt: hi sunt [illegible] contagiosi qui per seminarium [illegible] contactu [illegible] immediato, nullam analogiam requirentes [illegible] hydrophobia, scabies; mediante fomite [illegible], analogiam [illegible] [illegible] ad distans [illegible] [illegible] [illegible] [illegible] posterioribus includuntur.

Ex his quae in nos grassatur luis venerea morbus est non a coelo [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] sed contagione ab impuro primum concubitu profectus [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] humores non respondent [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] tophi, caries, tabes, qui non [illegible] [illegible] [illegible] [illegible].

Dum primi gradus nondum in partibus firmati illi tolluntur quos [illegible] [illegible] [illegible] [illegible] catharticis per alvum, sive hydrargyro per os sputatione, [illegible] [illegible] [illegible] hydroticis per [illegible] sarsa parilla. [illegible] [illegible] partibus solidis [illegible] [illegible] alexipharmacis [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] catharticis, aut hydrargyro [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] paralysi, arthritidi, [illegible] [illegible] hydropi, [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] liquatio, attenuatio, mollitio, incisio, penetratio, resolutio [illegible] [illegible] evacuatio catharticis longe tutius [illegible] sine noxa comparantur.

Alexipharmaca [illegible] [illegible] [illegible] [illegible] ad [illegible] [illegible] [illegible] ἀναντιλόγητα [illegible], [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible]: quae [illegible] cum ligno [illegible] sancto [illegible] adiuncta praecipuum palmarii antidoto illud hydrargyro longe efficacius [illegible] noxa [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] hydrargyrum [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] praemissa catharsi [illegible] phlebotomia, si (quod fit saepius) cacochymia subsit plethorica.

Ergo hydrargyrus non est luis venereae alexipharmacum.
